VLADIMIR NITU

Backend Developer

I am a Backend Developer with 2+ years of experience in implementing clean, fast and readable code, also being interested in software architecture and high scalable distributed systems.

EDUCATION

POLYTEHNIC UNIVERSITY OF TIMISOARA

MA in Software Engineering | 2020 – 2022

POLYTEHNIC UNIVERSITY OF TIMISOARA

BA in Computer Information Technology | 2016 – 2020

EXPERIENCE

BACKEND DEVELOPER

SoftNRG / Jan 2021 – Present

- I work with a variety of technologies, including message broker in order to enable communication between different components and microservices.
- Using microservices to build scalable systems that handle high traffic loads across different environments.
- Writing clean and readable code, participating in architecture projects, and building scalable systems.
- I write libraries and tests to ensure high-quality code that meets stakeholder requirements.

TEACHING ASSISTANT

Polytehnic University Of Timisoara | Jan 2020 – Present

- As a teaching assistant I have taught the following laboratories: Software Validation and Verification and The Foundations of AI

JUNIOR SOFTWARE ENGINEER

Nokia / SEP 2019 – JAN 2021

- I've been responsible for designing, developing, and executing integration test plans that validate the end-to-end functionality also understanding the CI, CD pipeline

DATABASE ADMINISTRATOR INTERNSHIP

Continental / JUL 2018 – AUG 2019

- I had the opportunity to work with SQL and gain valuable skills in database management and optimization.
